WORK EXPERIENCE

Senior Frontend Engineer • Scale at Speed Agency
Oct 2023 → Present Texas, United States (Remote)

- I collaborate with our Lead Technology Integrator to create visually stunning, high-performing websites that drive conversions.
- I brought years of my expertise in HubSpot CMS and WordPress to the forefront, crafting seamless user experiences and integrating API functionalities.
- I tackle diverse projects, from crafting e-commerce platforms to immersive storytelling websites.
- I am a problem-solving master, ensuring cross-browser compatibility, adhering to web development best practices, and offering technical support when needed.
- I thrive in our collaborative culture, participating in code reviews and driving continuous development improvement.

Senior Frontend Engineer • Undo for Tomorrow
Set 2023 → Present Lisbon, Portugal (Remote)

- Design and manage Shopify applications, encompassing the creation of Shopify Apps and integration of fresh design features onto the front end of store interfaces.
- Produce reports to offer insights and analytics concerning website performance and user behavior.
- Design personalized applications for internal use, carefully crafted to meet the specific needs and requirements of the business.
- Work alongside design and development teams to seamlessly integrate front and back-end functionalities in collaboration.
- Enhance website performance and user experience by continuously testing and refining processes.
- Developing specialized components using ReactJS, TailwindCSS, and Liquid for the stores to address specific user needs and foster organic sales growth.

Senior Frontend Engineer • PiniOn
Jul 2022 → May 2023 São Paulo, Brazil (Remote)

- I brought years of my expertise in HubSpot CMS and WordPress to the forefront, crafting seamless user experiences and integrating API functionalities.
- Design personalized applications for internal use, carefully crafted to meet the specific needs and requirements of the business.
- Design and manage HubSpot applications, encompassing the creation of HubL modules and integration of fresh design features onto the front end of store interfaces.
- I work collaboratively with the technology and marketing teams to deliver effective and excellent results.
- Responsible for creating marketing campaigns, including Landing Pages and Email Marketing.
